

Telstra Octagon

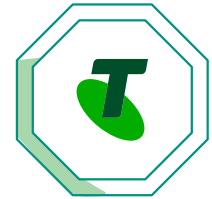

The global financial trading solution that gives you the milliseconds advantage

Trading is a hyper-competitive world where the difference between success and failure is measured in milliseconds.

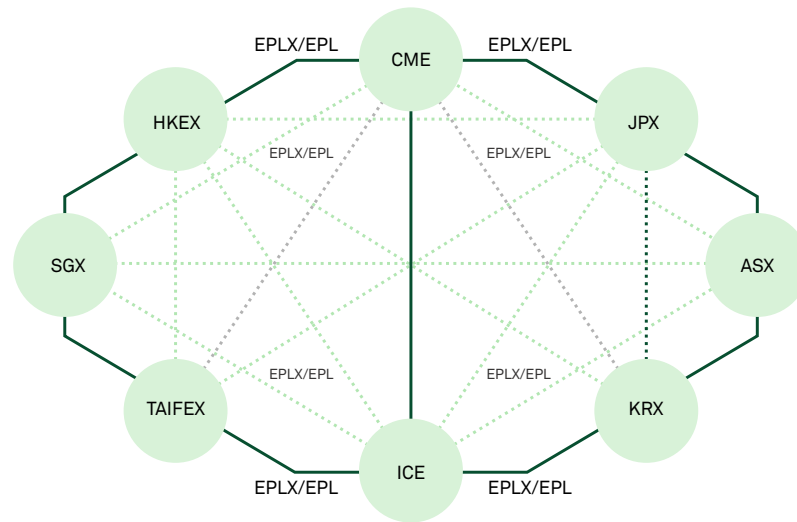

Telstra gives you the speed to succeed with direct access to the low latency cables that connect some of the world's leading exchanges.

That's why we created the Telstra Octagon, a snapshot of some of the world's leading futures exchanges.

Discover the Telstra Octagon: Commodities & Equities Low-Latency Trading Solution.

Telstra offers increased control over your trading performance because we own and operate the subsea cable routes and low-latency backhaul fibres into exchanges across the Telstra Octagon.

You get unparalleled financial performance to speed up price discovery, risk analysis, smart order routing, flow and matching, execution, and settlement.

Trade faster across key exchanges.

The Telstra Octagon represents more than a trillion US dollars in contracts traded daily. The Telstra Octagon includes exchanges in:

- | | | | |
|---|---|--|---|
|  Australia (ASX) |  Taiwan (TAIFEX) |  Hong Kong (HKEX) |  Japan (JPX) |
|  The United States (CME) (ICE) |  South Korea (KRX) |  Singapore (SGX) | |

Low-latency connection to Equinix financial ecosystem

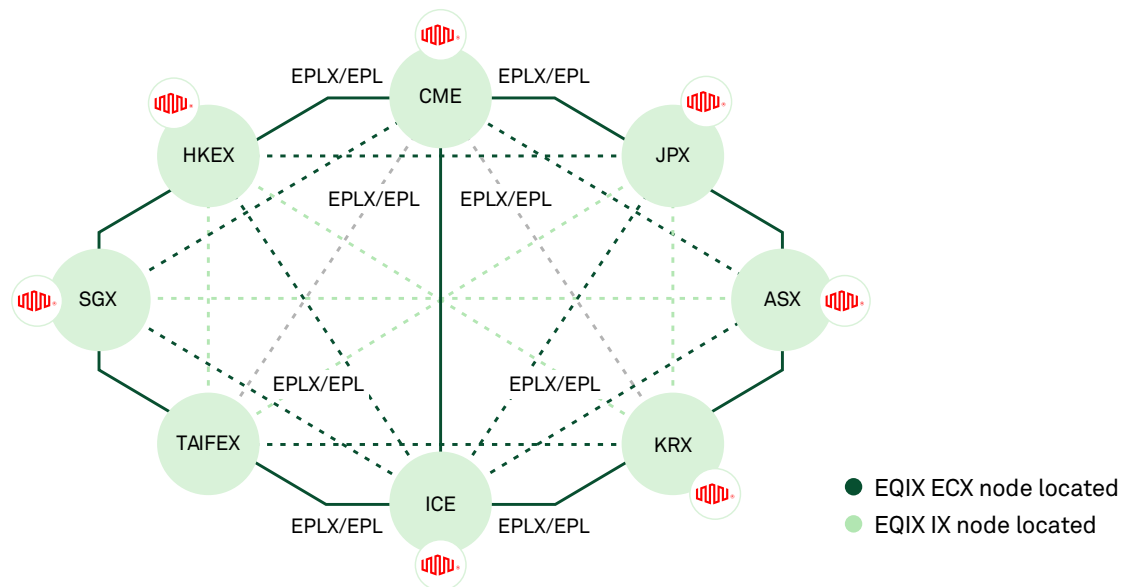

Telstra and Equinix have come together to offer fast, secure connectivity and hosting between major financial trading centres, exchanges, and data centres worldwide.

Telstra and Equinix enable you to tap an ecosystem of more than **1,250** financial services companies across Equinix's platform.

Telstra and Equinix offer:

- Direct market access to exchanges and data centres via low-latency **connectivity**.
- Exchange and data centre colocation, interconnection, and **hosting**.
- The **expertise** to consult, monitor and manage your service, end to end.
